SUMMERY

I am a hard-working and reliable programmer, whose top priority is carrying out best practice on any project, and to help achieve business objectives. I always endeavor to ensure my contributions are as effective and maintainable as possible, and to be a valuable asset in any team. I am a worker who takes their responsibilities seriously, who will take each new struggle as a lesson, and who will endlessly grow professionally and rise above the challenge.

WORK EXPERIENCE

JUNE - SEPTEMBER 2019 (EXPECTED)   (FT)

Arm Limited
Intern

This summer I have been working within OSS on the SCP project, principly working on upgrading it's logging infrastructure; this new design has reduced the codebase size, enchanced extensibility, and has enabled a more feature complete, rebust logging facility. Alongside this, I've assisted with other miscellaneous tasks, including refactoring of documentation and code, and out-of-box testing and subsequent doccumentation revision. During this short timespan I communicated with the team to better understand the firmware architecture and the requirements of my tasks.

JULY - SEPTEMBER 2018   (FT)

Fluke Precision Instruments
Software Design Engineer

During Summer 2018 I was employed in developing testing facilities to assist with a R&D project; this included developing unit tests for a remote interface and for an embedded GUI, alongside additional development of source code, administration of equipment, and collaboration with a subcontractor to more thoroughly test selected modules. I was required to learn and work with a variety of tools, including industry wide and in-house programs. I worked closely with the core development team to understand their requirements and ensure that the developed tools were as useful as possible to development

JUNE - AUGUST 2017   (PT)

Sports Direct
Casual Sales Assistant

JUNE - JULY 2015   (WORK EXPERIENCE)

Pakefield School
IT Support

Assisted senior technicians with ticket resolution, printer maintenance, PC maintenance, and on one day supervision of a computer aided test. In addition I participated in educational activities which included modifying computer hardware and other activities related to IT support.

EDUCATION

2017 - 2020 (EXPECTED)	**Beachelor of Science** FIRST (AS OF THE END OF SECOND YEAR) Computer Science *University of East Anglia*
2015 - 2017	**Various A-Levels/BTECs** 2 A*, 1 B, 1 D* Further Maths/Maths, Game Design *Lowestoft Sixth Form College*

AWARDS

2017	**Bright Spark Scholarship** *University of East Anglia*

TECHNICAL SKILLS

PROFICIENT	Python (including psycopg2, flask, PyQt) Java Databases (PostgreSQL, XML/JSON) Git version control C (Embedded) Linux
LEARNING	Rust CMake LaTeX
